# \*Introduction

## JACoW's Role

- \*To publish member conference's proceedings on the Internet at JACoW.org
- \*To provide support to member conferences by means of tools for conference organisation, proceedings production and shared software licenses.

## The Conference Role with respect to JACoW

- \*To deliver a complete set of files which are compatible with JACoW's requirements (!) in a WWW-ready format.

# \*which means ...

- \*The proceedings preparation and production is the **responsibility** of the **conference**.
- \*The JACoW Team will provide help to conferences but this has to be at the cost of the conference and on a **'good will'** basis.

# \* Open Archive

- \* JACoW is an Open Archive and our tools provide everything needed to set up and run a conference, process the papers, referee them and prepare the complete set of documents for publication on the web, on paper, on CD/DVD and USB sticks.
- \* We provide library metadata for Open Access archives (Inspire).
- \* Copyright under **Creative Commons Attribution 3.0** which allows you to use the work but you must attribute the work in the manner specified by the author or licensor.

# \* Collaboration Membership in 2012

(IBIC is formed by European DIPAC and North-American BIW  
as “International Beam Instrumentation Conference”, in  
2013 the second IBIC in Great Britain)

# \*Team Meetings

- \* Regular attendance at Team Meetings is **essential** to maintain high standards and a **border condition** for JACoW conferences. The result is
  - \* enhanced cooperation and collaboration across the whole accelerator field
  - \* the development of the SPMS and associated Profile/Affiliation Repositories (>28,000 individual profiles, ~3,800 affiliations)
    - \* Mailing Lists

## \*Citation Indexes/Impact Factor/Referencing

Report on the contact to Thomson/Reuter concerning JACoW's entry in ISI/Web of Knowledge:

- ▶ Citations and References are too bad at the moment
- ▶ too imprecise to find the source
- ▶ the next step is “Educating Authors”

## \*New JACoW.ORG Website

Reactivation of earlier work on a new JACoW website (Wiki) at ELETTRA:

**Stefano Dieuri** (ELETTRA) and **Charlie Horak** (SNS) did a fine job to establish the new JACoW site (online since April 2013).

**Conference Proceedings** are stored, index and searched at **CERN**  
**Documentation** is hosted and done at **ELETTRA**  
**Proceedings Mirror Site** at **KEK**

## \* New JACoW Website

The screenshot shows the JACoW.org website homepage. At the top is the JACoW.org logo in blue and white. Below the logo is a navigation bar with links: Home, Proceedings, for Authors, for Organizers, for JACoW Team, Tools, About, and Contacts. The main content area is titled "Joint Accelerator Conferences Website" and contains a paragraph describing the site's purpose. Below this is a grid of 20 blue buttons, each representing a different conference series. To the right of the main content is a "JACoW News" sidebar with several news items, each with a date and a link to the proceedings.

### Joint Accelerator Conferences Website

The Joint Accelerator Conferences Website (JACoW) is an international collaboration that publishes the proceedings of accelerator conferences held around the world. Originally created for the publication of the proceedings of the Asian, European, and North American particle accelerator conferences (which in 2010 became the International Particle Accelerator Conference series, IPAC), today the site hosts the [proceedings](#) of the following JACoW collaboration conferences:

ABDW	CYCLOTRONS	FEL	ICAP	PAC
APAC	DIPAC	HIAT	IPAC	PCaPAC
BIW	ECRIS	IBIC	LINAC	RuPAC
